MESSAGE FROM CEO

Dear Customers, Business Partners and Future Shareholders,

Welcome to Vetronix Biotech Pvt. Ltd.

At Vetronix, we are committed to delivering innovative, high-quality, and reliable animal healthcare solutions that enhance the health, productivity, and profitability of the livestock and poultry industries. Every product is developed and manufactured under stringent quality standards and Good Manufacturing Practices (GMP), ensuring safety, consistency, and effectiveness.

Quality, innovation, and customer satisfaction remain at the heart of everything we do. Supported by a strong global supply chain and a dedicated team, we continuously strive to develop products that meet the evolving needs of modern animal farming.

Our international presence enables us to serve customers across diverse markets through our regional offices in Noida, India (Asia), Muscat, Sultanate of Oman (Middle East & Africa), and London, United Kingdom (UK & Europe).

As we move forward, we remain committed to creating sustainable value for our customers, business partners, employees, and future shareholders. We sincerely thank all our stakeholders for their trust and support and look forward to growing together in the years ahead.

With warm regards,

Er. Mohammad Arif
Chief Executive Officer

HEAT STRESS MANAGEMENT

VETRO-BTN

Betaine HCL

VETROCOOL

For Heat Stress, Fever Management & Viral Challenges

VETROLYTE

Electrolytes

OPTIVITA-AMTM

Multivitamin - Amino Acid - Mineral Formula

INDICATIONS

- Nutritional deficiencies, poor body weight gain and Vaccination Stress, Heat Stress and Cold Stress .
- Stress due to vaccination, transportation and heat.
- Reduced egg production and poor breeder performance.

BENEFITS

- Supplies essential vitamins, amino acids and trace minerals required for metabolism.
- Improves growth, immunity and feed utilization.
- Enhances fertility, hatchability and production efficiency.

DOSAGE

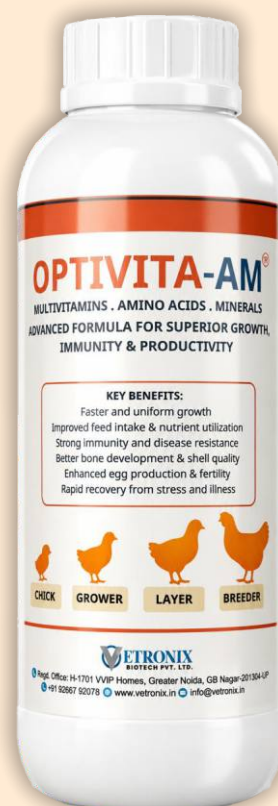

Chicks	: 5-10 ml per 100 chicks in drinking water
Growers, Broilers & Layers	: 10-15 ml per 100 birds in drinking water
Breeders	: 25 ml per 100 birds in drinking water

HOW IT WORKS:

OPTIVITA-AM delivers a balanced blend of vitamins, amino acids, minerals, and betaine to support metabolism, immunity, and nutrient utilization. It enhances feed efficiency, promotes healthy growth, improves stress tolerance, strengthens bones and muscles, supports egg production, and helps birds achieve better overall performance, productivity, and health under all farming conditions.

PRESENTATION

1 Liter HDPE Bottle
5 Liter HDPE Can

1 Liter Bottle

COMPOSITION

Each 1 Litre Contains:

VITAMINS

Vitamin A	- 1,00,00,000 IU
Vitamin D ₃	- 20,00,000 IU
Vitamin E Acetate	- 5.0 g
Vitamin K ₃	- 8.0 g
Vitamin B ₁	- 3.5 g
Vitamin B ₂	- 4.0 g
Vitamin B ₆	- 2.0 g
Vitamin B ₁₂	- 10 mg
Vitamin B ₅	- 15 g
Inositol	- 2.5 mg
Biotin	- 2.0 mg
Choline Chloride	- 400 mg
Lycopene	- 25 mcg

AMINO ACIDS

DL-Methionine	- 5.0 g
Taurine	- 3.5 g
L-Lysine	- 2.5 g
L-Aspartic Acid	- 1.45 g
L-Glutamic Acid	- 1.16 g
L-Leucine	- 1.5 g
L-Valine	- 1.1 g
L-Alanine	- 975 mg
L-Histidine	- 900 mg
L-Phenylalanine	- 810 mg
L-Serine	- 680 mg
L-Glycine	- 575 mg
L-Proline	- 510 mg
L-Threonine	- 500 mg
L-Arginine	- 490 mg
L-Tyrosine	- 340 mg
L-Cysteine	- 150 mg
L-Isoleucine	- 125 mg
Tryptophan	- 75 mg

MINERALS

Calcium Gluconate	- 15 g
Calcium Phosphate	- 5.0 g
Magnesium Sulphate	- 2.5 g
Zinc Sulphate	- 1.5 g
Manganese Sulphate	- 1.2 g
Ferrous Sulphate	- 1.0 g
Copper Sulphate	- 500 mg
Sodium Selenite	- 2.5 mg
Cobalt Sulphate	- 1.0 mg
Potassium Iodide	- 500 mg
Potassium Chloride	- 2.5 g
Sodium Chloride	- 3.0 g
Betaine Hydrochloride	- 2.5 g

5 Liter HDPE Can

VITALNIXTM

Immunity Booster, Anti Stress, Antioxidant

INDICATIONS

- Low immunity and oxidative stress.
- Poor fertility and hatchability.
- Stress during vaccination, transportation and Debeaking.
- During Pox & Coccidiosis disease recovery.

BENEFITS

- Vitamin E and Selenium provide potent antioxidant protection.
- Supports reproductive performance, fertility and hatchability.
- Enhances immunity, egg production and overall flock performance.

DOSAGE

Chicks	: 5 ml per 100 chicks
Growers	: 7-10 ml per 100 birds
Broilers	: 7-10 ml per 100 birds
Layers	: 7-10 ml per 100 birds
Breeders	: 15 ml per 100 birds
Or as recommended by a veterinarian.	

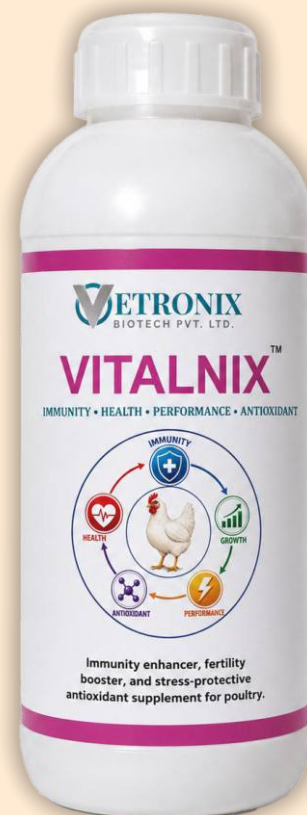

COMPOSITION

Each 1 ml Contains:

Vitamin E	- 100 mg
Sodium Selenite	- 200 mcg
Vitamin A	- 15,000 IU
Vitamin H (Biotin)	- 200 mcg
Vitamin K	- 7 mg
Zinc Sulphate	- 200 mcg

PRESENTATION

1 Liter HDPE Bottle

1 Liter HDPE Bottle

VITMOZYME FORTE

A Growth Promoter with Vitamins - Minerals - Enzymes

INDICATIONS

- Poor growth and low body weight gain.
- Poor FCR and digestive inefficiency.
- Nutritional deficiencies and production & Climatic stress

BENEFITS

- Enzyme complex improves digestibility and nutrient availability.
- Vitamins, minerals and sodium butyrate support gut health and metabolism.
- Enhances body weight gain, FCR and production performance.

DOSAGE

2 kg per ton of feed or as recommended by a Nutritionist or Consultant.

COMPOSITION

Each 5 kg Contains:

Vitamin H.	25 mg
Vitamin A.	2550000 IU
Vitamin D3.	2000000 IU
Vitamin E.	20000 mg
Vitamin B1.	1000 mg
Vitamin B2.	2000 mg
Vitamin B3	15000 mg
Vitamin B6.	1500 mg
Vitamin B12.	10 mg
Vitamin K3.	1000 mg
Vitamin B5.	350 mg
Xylanase.	15000 XU
Lipase.	15000 XU
Phytase.	25000 FTU
Yeast.	25 Million CFU
DiCalcium Phosphate	200 g
Phosphoric acid.	10 g
Manganese sul.	25 g
Zinc sulphate.	20 g
Ferrous sulphate.	15 g
Sodium selenite.	0.035 g
Cobalt sulphate.	0.25 g
Sodium butyrate.	15 g
Choline chloride.	100 g
Magnesium hydroxide	25 g

MIX VITAMIN POUCH IN PROPORTION OF WEIGHT BEFORE USING

LIVOGROW PLUSTM PREMIX

Advanced Hepatoprotective & Metabolic Optimizer

BENEFITS

- Protects liver cells.
- Prevents and reduces fatty liver.
- Enhances liver detoxification.
- Improves nutrient digestion and absorption of fats and fat-soluble vitamins, thereby improving appetite.
- Supports recovery after viral and bacterial diseases.
- Improves egg production and fertility.

DOSAGE

Layers & Broilers : 500 g – 1 kg per ton of feed.

Breeders : 1 – 2 kg per ton of feed.

or as recommended by a poultry nutritionist or veterinarian.

COMPOSITION

Each Kg Contains:

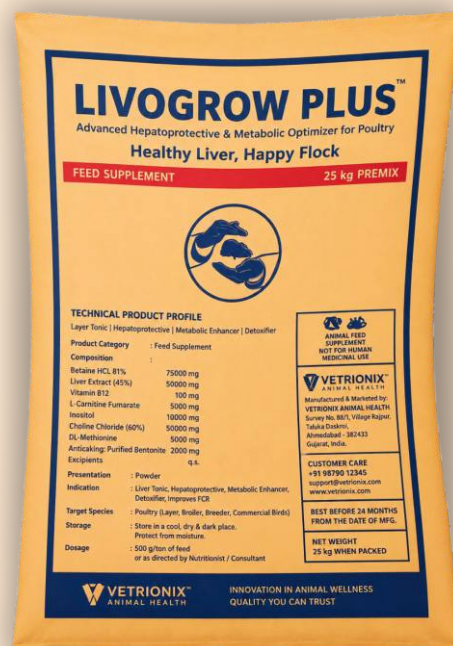

Thiocholine Citrate
Liver Extract
Methionine Hydroxy Analog (MHA)
Protein Hydrolysate
Silymarin (Milk Thistle Extract)
Andrographis paniculata Extract
Biotin
Inositol
Sodium Selenite
Choline Chloride
Sodium EDTA
Yeast
Vitamin E 50%
Vitamin B12

PRESENTATION

10 Kg Bag

25 Kg Bag

ENRICHED WITH
SILYMARIN
MILK THISTLE EXTRACT

REGULAR FEEDING WILL KEEP LEVER HEALTHY

LIVOGROW PLUSTM LIQUID

An Efficient and Effective Liver Tonic

WHEN TO USE

- Fatty Liver Haemorrhagic Syndrome (FLHS) and liver dysfunction.
- Poor appetite, slow growth, reduced egg production, poor fertility, and hatchability.
- Recovery after disease, medication, toxin exposure, and climatic stress.

BENEFITS

- LOLA, Silymarin and Tricholine Citrate support liver detoxification and regeneration.
- Betaine HCl and L-Carnitine improve lipid metabolism and energy utilization.
- Enhances growth, FCR, egg production and flock productivity.
- Hepatoprotective & Antioxidant
- Fat Metabolism & Prevention of Fatty Liver
- Nutrient Absorption & Digestive Support
- Energy Metabolism

DOSAGE

Chicks	: 10 ml per 100 birds
Growers	: 15 ml per 100 birds
Layer/Broiler	: 20 ml per 100 birds
Breeder	: 30 ml per 100 birds
Or as recommended by a Nutritionist or Consultant	

COMPOSITION

Each 1 Liter Contains:

Tricholine Citrate	- 30,000 mg
Sorbitol	- 10,000 mg
Liver Extract	- 10,000 mg
LOLA (L-Ornithine L-Aspartate)	- 2,000 mg
Betaine HCl	- 5,000 mg
MHA (Methionine Hydroxy Analog)	- 10,000 mg
Silymarin (Milk Thistle Extract)	- 5,000 mg
Curcumin (Turmeric Extract)	- 500 mg
Andrographis (Paniculata Extract)	- 1,000 mg
Vitamin E (Tocopheryl Acetate)	- 1,000 mg
Biotin	- 20 mg
Vitamin B12	- 5 mg
Vitamin K3	- 500 mg
Inositol	- 3,000 mg
Sodium Selenite	- 10 mg
L-Carnitine HCl	- 7,000 mg
Choline Chloride	- 10,000 mg
Beta Glucan	- 2,000 mg
Sodium EDTA	- 500 mg
Phyllanthus Niruri Extract	- 5,000 mg
Piperine Extract	- 50 mg

ENRICHED WITH
SILYMARIN
MILK THISTLE EXTRACT

PRESENTATION

- 1 Liter HDPE Bottle
- 5 Liter HDPE Can
- 25 Liter HDPE Can

LACTONIXTM

PREBIOTICS . PROBIOTICS . POSTBIOTIC . GUT ENHANCER . ENZYMES

INDICATIONS

- Dysbacteriosis and digestive disturbances.
- Poor FCR, uneven growth and loose droppings.
- Gut microflora imbalance after antibiotic therapy or stress.

BENEFITS

- Restores beneficial intestinal microflora through probiotics, prebiotics and postbiotics.
- Sodium butyrate and enzymes improve nutrient digestibility and FCR.
- Supports intestinal immunity, flock uniformity and production efficiency.

DOSAGE

Chicks	: 20 g per 1000 chicks in drinking water
Grower / Layer / Broiler	: 40 g per 1000 birds in drinking water
Breeder	: 60 g per 1000 birds in drinking water
or as advised by a veterinarian	

COMPOSITION

Each 1 kg contains
Probiotics (5.5 Billion CFU/g):

Bacillus subtilis	- 4350 Billion CFU/kg
Bacillus coagulans	- 20 Billion CFU/kg
Lactobacillus acidophilus	- 500 Billion CFU/kg
Lactobacillus racemosus	- 30 Billion CFU/kg
Enterococcus faecium	- 200 Billion CFU/kg
Enterococcus faecalis	- 100 Billion CFU/kg
Saccharomyces boulardii	- 200 Billion CFU/kg
Saccharomyces cerevisiae	- 100 Billion CFU/kg

PREBIOTIC

FOS (Fructo-OligoSaccharides)	- 15,000 mg/kg
-------------------------------	----------------

POST BIOTIC

Beta-Glucan (β -Glucan)	- 5,000 mg/kg
--------------------------------	---------------

ENZYMES

Xylanase	- 100,000 XU/kg
Amylase	- 100,000 AU/kg
Lipase	- 250,000 U/kg
Phytase	- 50,000 FTU/kg

GUT ENHANCER

Sodium Butyrate	- 30 g/kg
-----------------	-----------

PRESENTATION

1 Kg Pack (Water Soluble)

ENTROCARE-PTM

Advanced Phyto-Bio Intestinal Treatment

INDICATIONS

- Loose droppings, diarrhoea and wet litter.
- Enteritis, intestinal inflammation and poor digestion.
- Reduced feed intake and poor growth following enteric challenges

BENEFITS

- Controls intestinal pathogens and promotes gut healing through phytobiotics.
- Improves nutrient absorption and feed efficiency by maintaining intestinal integrity.
- Enhances immunity and flock performance without residue concerns.

DOSAGE

Chicks	: 5 ml per 100 birds in drinking water
Broilers	: 10 ml per 100 birds in drinking water
Layers	: 10 ml per 100 birds in drinking water
Breeders	: 15 ml per 100 birds in drinking water
Or as directed by a veterinarian	

COMPOSITION

Each 1 Liter contains

Andrographolide Extract	- 30 g
Cinnamic Acid Extract	- 20 g
Curcuminoids Extract	- 20 g
Kutaj Extract	- 20 g
Menthol Extract	- 10 g
Thymol Extract	- 10 g
Carvacrol Extract	- 10 g
Azadirachtin Extract	- 10 g
Tannic Acid Extract	- 05 g
Garlic Extract	- 05 g
Ginger Extract	- 05 g
Mulethi Extract	- 05 g
Papaya Extract	- 05 g
Eugenol Extract	- 05 g
Sodium Citrate	- 03 g

PRESENTATION

5 Liter HDPE Can

TETRA GUARDTM

Powdered Oxytetracycline HCL with Gut Acting Molecules

BENEFITS

- Prevents Gram-negative bacterial infections such as E. coli and Salmonella (spp), and helps reduce early chick mortality.
- Helps control Mycoplasma infections, promoting better respiratory health.
- Controls Fowl Typhoid and Fowl Cholera, while helping prevent wet litter problems.
- Inhibits Clostridial infections, thereby reducing the incidence of dermatitis.
- Supports gut health by promoting beneficial intestinal microflora with the help of prebiotics and probiotics.

DOSAGE

500 g-1000g per ton of feed

or as recommended by a Nutritionist / Poultry Consultant.

COMPOSITION

Each 1 kg contains

- Oxytetracycline HCl – 15%
- Saccharomyces boulardii
- Mannan Oligosaccharides (MOS)
- Antioxidants
- Herbal Support Base

MODE OF ACTION

TETRA GUARD contains Oxytetracycline HCl, which binds to the 30S ribosomal subunit of susceptible bacteria and inhibits protein synthesis, thereby preventing bacterial growth. It is effective against a broad range of Gram-positive and Gram-negative bacteria, including Mycoplasma. MOS and Saccharomyces boulardii help maintain healthy gut microflora, improve intestinal integrity, and support faster recovery from enteric infections.

PRESENTATION

1 Kg Pack

5 Kg Pack

Note: Antibiotic use should be based on veterinary diagnosis. Final treatment decisions should be taken by the veterinarian.

NEONIX FORCE-DTM

Neomycin & Doxycycline Antibiotic Feed Additive with Vitamins

INDICATIONS & USAGE

- Treats mixed bacterial infections, including Chronic Respiratory Disease (CRD) associated with E. coli and other respiratory disease complexes.
- Effective against infections caused by Mycoplasma, Gram-positive and Gram-negative bacteria, and certain fungi and protozoa.
- Helps prevent early chick mortality associated with yolk sac infection, diarrhoea, and enteritis.

DOSAGE

Prevention : 1 g per 10 litres of drinking water for 3–5 days.

Severe Infection : 1 g per 2 litres of drinking water for 3–5 days.

Or as directed by a Veterinarian.

MODE OF WORKING

NEONIX FORCE-D contains 10% Neomycin Sulphate and 10% Doxycycline, providing broad-spectrum antibacterial activity against both intestinal and systemic bacterial infections in poultry.

Neomycin irreversibly binds to the 30S ribosomal subunit, disrupting bacterial protein synthesis and killing susceptible bacteria (bactericidal action). Doxycycline also binds to the 30S ribosomal subunit, inhibiting bacterial protein synthesis and preventing bacterial growth (bacteriostatic action). Together, they provide effective control of a wide range of bacterial infections.

COMPOSITION

Each 1 Gram contains

- Neomycin – 100 mg
- Doxycycline – 100 mg
- Vitamin B1 – 0.4 mg
- Vitamin B2 – 0.25 mg
- Vitamin B3 – 1.1 mg
- Vitamin B6 – 0.3 mg

PRESENTATION

100 g Pack

250 g Pack

Note: Antibiotics should be used judiciously and the final diagnosis and treatment protocol should be decided by a veterinarian.

OSTEOMINTM LIQUID

A Complete & Highly Effective Calcium Supplement

INDICATIONS

- Thin-shelled eggs and low shell quality.
- Leg weakness, rickets and skeletal abnormalities.
- Calcium deficiency during peak production.

BENEFITS

- Highly bioavailable calcium sources improve eggshell strength and bone mineralization.
- Vitamin D₃ enhances calcium absorption and utilization.
- Supports hatchability, laying performance and skeletal integrity.

DOSAGE

Chicks	: 5 ml per 100 birds per day
Layers/Broilers	: 20 ml per 100 birds per day
Breeders	: 35 ml per 100 birds per day

or as recommended by a veterinarian/consultant.

COMPOSITION

Each 20 ml Contains

Calcium Gluconate	– 3000 mg
Calcium Lactate	– 1500 mg
Vitamin D ₃	– 6000 IU
Magnesium Sulphate	– 900 mg
Sodium Acid Phosphate	– 900 mg
Zinc Sulphate	– 100 mg
Manganese Sulphate	– 40 mg
Copper Sulphate	– 24 mg
Sodium Selenite	– 60 mcg
Vitamin B12	– 80 mcg
Sorbitol	– 2000 mg
Boric Acid	– 400 mcg
Vitamin C	– 4 mg
Vitamin K3	– 300 mcg

PRESENTATION

1 Liter HDPE Bottle
4.5 Liter HDPE Can
20 Liter HDPE Can

VETRO-BTNTM

Betaine HCL

INDICATIONS

- Poor digestion and reduced feed efficiency.
- Fat accumulation and metabolic stress.
- Poor growth and non-uniform flock performance.

BENEFITS

- Betaine HCl improves gastric digestion and nutrient utilization.
- Functions as an osmolyte to maintain cellular hydration during stress.
- Supports liver metabolism, FCR and growth performance.

DOSAGE

1 kg per Ton of Feed

or as recommended by a veterinarian/consultant.

COMPOSITION

Component	Specification
• Betaine Hydrochloride	≥ 98%

TECHNICAL SPECIFICATIONS

Parameter	Result
• Appearance	White crystalline powder
• Assay	98 – 100.5%
• Loss on Drying	Max 1.0%
• Solubility	Water soluble
• Ph	7 – 8.5

MICROBIOLOGICAL PARAMETERS

Test	Limit
• Total Plate Count	Max 1000 cfu/g
• Yeast & Mold	Max 100 cfu/g
• Salmonella	Negative
• E. coli	Negative
•

VETROCOOLTM

For Heat Stress And Fever Management

INDICATIONS

- Fever, heat stress and dehydration.
- Reduced feed intake and depression.
- Post-vaccination and infection-associated stress.

BENEFITS

- Provides rapid antipyretic and anti-stress action.
- Restores electrolyte balance and hydration.
- Supports feed intake and faster recovery during stress.

DOSAGE

Chicks & Growers	:1 g per 2–3 litres of drinking water
Broilers & Layers	:1 g per 2 litres of drinking water
Breeders	:1 g per 1 litre of drinking water
Cattle / Large Animals	:10–20 g per animal per day mixed in water or feed
Or as recommended by a veterinarian.	

INGREDIENTS

- Antipyretic & Analgesic Agent
- Electrolytes Blend
- Vitamin
- Herbal Cooling & Anti-stress Extracts
- Energy Booster

PRESENTATION

250 g Pack
1 Kg Pack

VETROLYTE™

Electrolytes with Dextrose Base

INDICATIONS

- Heat stress and dehydration.
- Electrolyte imbalance and weakness.
- Recovery after transportation, vaccination and disease.

BENEFITS

- Rapidly replenishes electrolytes and provides instant energy through dextrose.
- Betaine HCl and Vitamin C help maintain osmotic balance and reduce oxidative stress.
- Maintains body weight, FCR and egg production during stressful conditions.

DOSAGE

1 g per litre of drinking water

1 kg per ton of feed

or as recommended by a veterinarian.
